FREQUENTLY ASKED QUESTIONS

► Who is eligible to ride in a Vanpool?

Anyone can ride in a vanpool and is a great choice for riders who:

- *Would like to receive rewards for their commute*
- *Maintain a consistent schedule*
- *Live 15 or more miles from work*

► Who supplies the van?

Enterprise Rideshare provides the van and will either place riders in an existing vanpool or work with you to form a new vanpool. Enterprise Rideshare will help you lease the van, coordinate insurance and billing, screen drivers, add additional riders and assist in vehicle maintenance.

► What does a vanpool cost?

Pricing varies based on the type of van and the included amenities. Employees can use their commuter benefits to pay for their monthly fees (up to \$130) and new riders will receive a \$50 reward for their first six months. On average, out-of-pocket expenses are less than \$100 per month.

► Is there financial help available?

Yes, Arlington Transportation Partners will help subsidize the cost of seats in new or existing vanpools for six months while we work with partners and clients to find additional riders.
